## BC PET REGISTRY OVERVIEW

### What is the BC Pet Registry?

The BC Pet Registry is British Columbia's first centralized pet identification (ID) database, launched by the British Columbia Society for the Prevention of Cruelty to Animals (BC SPCA) in 2015. The registry ensures that all dogs, cats, and rabbits are given their best chance of getting back home should they become lost. Lost pets that are registered can be identified and returned to their family with a simple search.

### Why did the BC SPCA create the BC Pet Registry?

The sole goal of the BC Pet Registry is to reunite lost pets with their people. Each year, thousands of lost or stray animals are taken into care by BC SPCA shelters, animal control agencies, veterinarians and rescue groups.

Without permanent identification, it is nearly impossible to identify lost animals and reunite them with their families. Each year, approximately 95% of cats and 30% of dogs in Canada are unable to be traced to their original guardian. At the BC Pet Registry, we hope to reverse this trend.

The BC Pet Registry offers a single, centralized database that will allow pet guardians to register their personal contact information with their pet's ID. This registration will enable any participating veterinarian, animal control agency or rescue group to search the database and locate the guardian of any lost pet already registered with the BC Pet Registry.

### How does BC Pet Registry work?

Each registration is uploaded to the BC Pet Registry's online portal ([www.bcpetregistry.com](http://www.bcpetregistry.com)). Pet owners are able to login with their email provided during the adoption process. While logged in to their account, they can update their person and pet details. Pet owners are able to register more than one permanent ID to their pet's profile for no additional cost (ex. microchip and tattoo).

Veterinarians, animal control agencies and shelters can access the portal to register their clients or search to locate the guardian of a lost animal based on the animal's unique microchip, tattoo, or license.

Cats, dogs, and rabbits from any of the BC SPCA's 36 shelters are now automatically registered in the database at the time of adoption. Pets can also be added to the database online by their guardian or during a visit to a participating veterinary clinic or hospital.

*Registration fees are used to cover the cost of operating the provincial registry. Any additional revenue generated goes directly to the life-saving work done at the BC SPCA for abused, neglected, and homeless animals.*

## BC PET REGISTRY PROVINCIAL TATTOO IDENTIFICATION PROGRAM

In 1987 the College of Veterinarians of British Columbia (CVBC) adopted a province wide Tattoo Identification Program. On January 1<sup>st</sup>, 2017 the Tattoo Identification Program was absorbed by the [BC Pet Registry](http://bcpetregistry.ca), an initiative of the British Columbia Society for the Prevention of Cruelty to Animals (BCSPCA).

Vancouver Island already had a pre-existing tattoo program before 1987 and their listing is included in this book. Codes are no longer added to the Vancouver Island listing as only one list is now being maintained for the entire province.

Tattoo information can be found at [bcpetregistry.ca](http://bcpetregistry.ca) or by calling us at: 1-855-622-7722.

### Tattoo Instructions

Codes must be in the following order to be correctly interpreted:

1. The individual animal identification number must be assigned and recorded by the facility placing the tattoo.
2. The hospital code is 2 to 3 pre-assigned letters found on the following list (*Note: The letters D, I, O, Q, and U have been purposely excluded from the following list*).
3. The year codes are as follows:

<b>L</b>	2001	<b>R</b>	2005
<b>M</b>	2002	<b>S</b>	2006
<b>P</b>	2004	<b>V</b>	2008
<b>W</b>	2009	<b>X</b>	2010
<b>Y</b>	2011	<b>Z</b>	2012
<b>A</b>	2013	<b>B</b>	2014
<b>C</b>	2015	<b>E</b>	2016
<b>F</b>	2017	<b>G</b>	2018
<b>H</b>	2019		

**The ability to reunite pet and owner depends upon the tattoo code being entered in the universal order stated near the top of this page and securely recording this information.**

To register tattoos with the BC Pet Registry, please email [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca) for more information.

EXAMPLE:                 123 DB V                 123 for the individual animal  
                                   DB for the facility (Dunbar Vet. Hospital, Vancouver)  
                                   V for the year (2008)

                                  123 AAH V                 123 for the individual animal  
                                   AAH for the facility (Yale town Pet Hosp., Vancouver)  
                                   V for the year (2008)

## Tattoo Placement

**The right ear is the preferred site for the tattoo.** All veterinarians and shelters in the province should be able to identify the practice facility that placed the tattoo. Each practice facility should be able to identify the animal from its individual number. Returning the animal to its owners should then be a straightforward process.

## Privacy Information

With regard to the Privacy Act, owners that choose to participate in the tattoo program waive their right to their contact information remaining confidential in the sole circumstance of identifying an animal tattooed under this program. Other practice facilities as well as an agency that has statutory authority such as the BC SPCA may contact your facility to obtain the telephone number for the owner of a lost pet. This contact information should be released in accordance with the Bylaws (Code of Ethics, S. 91, Disclosure of Information) to assist with reuniting the pet and owner. If you do not wish to provide this information, instead of refusing to release the information, obtain the facility's name and telephone number and contact the owners to inform them of their pet's location.

If you choose to participate, the tattoo that is put on the pet should have a number of your choice as the animal identification code, the assigned practice code and the year code. This program does not supersede Canadian Kennel Club and American Kennel Club tattoo numbers but may be more useful as it is not restricted to purebred dogs and the practice codes are not confidential.

The CVBC and BC Pet Registry encourages your participation in this program. If you have any further questions regarding the program or the necessary tattooing equipment, please email [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca) or call 1-855-622-7722.

## Registering Tattoos with the BC Pet Registry

Veterinarians have the option to register tattoos with the BC Pet Registry's online permanent pet ID database. Any microchip, tattoo, or license can be registered online at [bcpetregistry.ca](http://bcpetregistry.ca) with an Industry Account. Registering permanent ID with the BC Pet Registry is highly recommended to provide pets with the best chance of being reunited with their guardians should they become lost.

Please note that this is an optional registration and is not required. Paper records can still be maintained at the clinic or hospital for tattoos.

### Step 1: Request an industry account

Veterinary staff can email [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca) to request a free industry account. This account will allow you to search a tattoo code, microchip, or license on the registry should a lost pet come in to your clinic or hospital.

### Step 2: Sign and submit agreements

All clinics and hospitals wishing to join the BC Pet Registry must sign an Affiliate Agreement. If you wish to purchase microchips with the BC Pet Registry, a Microchip Purchasing Agreement must also be signed and submitted.

These forms will be sent during the account application process.

### Step 2: Register clients

Each tattooed or microchipped pet can be added to the Registry during a regularly scheduled appointment. Account details should be added by a veterinary staff member during the appointment to ensure registration is complete.

### Step 4: Information is stored online

The BC Pet Registry offers a secure database for all forms of permanent pet identification. This information will not be sold to third parties. Decrease paperwork at your clinic and feel comfortable knowing your client's pets are protected.

### Step 3: Earn rebates for each registration

Each registration will earn your clinic/hospital a significant rebate. This applies to all types of registrations. For more details, please inquire with [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca).

*Register for an industry account today! Contact us at: [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca) and become a part of BC's only provincial pet ID database.*

## INSTRUCTIONS: CLOSING, MERGING, OR RENAMING YOUR PRACTICE

If you are planning to close your practice, please contact the College of Veterinarians of British Columbia (CVBC) to notify them of your practice's closure.

### Tattoo Record Keeping Guidelines

As per CVBC guidelines, tattoo records need to be kept indefinitely. If you are planning to close, merge, or rename your practice, arrangements must be made to ensure these records are still accessible. Please contact the CVBC to learn more about current bylaws and guidelines.

### Notifying the BC Pet Registry

If your clinic is closing, merging, or being renamed, please contact the BC Pet Registry so that we can update the Provincial Tattoo Identification Program documents.

### Registering Tattoos with the BC Pet Registry

Tattoos can be registered with the BC Pet Registry in the case of practice closure. Please note that pet owner's permission must be obtained in order to register clients. If you would like more information, please contact us at: [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca).

### Notifying Clients

In the case your clinic is closing, merging, or being renamed, it is recommended that an email be distributed to clients sharing the benefits of registering their tattoos with the BC Pet Registry. Tattoo records hosted on the BC Pet Registry website will allow any veterinarian or shelter enrolled in the program to access records, no matter where the paper logs are/were previously housed.

If you would like an email template to customize, please contact us at: [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca).

Contact us at: [info@bcpetregistry.ca](mailto:info@bcpetregistry.ca) to begin registering your clients' tattoos with BC's only provincial pet ID database.

## VANCOUVER ISLAND TATTOO IDENTIFICATION PROGRAM

**\*For use with the Vancouver Island pre-existing tattoo code list. Please note this method is now obsolete. New Vancouver Island clinics and hospitals will be provided with a three-letter tattoo code.**

1. The facility code was **1 or 2** pre-assigned letters found on the attached list.
2. The individual numerical designation was assigned and recorded by the facility placing the tattoo.
3. The year codes are as follows:

<b>M</b>	2002	<b>R</b>	2005
<b>N</b>	2003	<b>S</b>	2006
<b>P</b>	2004	<b>T</b>	2007
<b>V</b>	2008	<b>W</b>	2009
<b>X</b>	2010	<b>Y</b>	2011
<b>Z</b>	2012	<b>A</b>	2013
<b>B</b>	2014	<b>C</b>	2015
<b>E</b>	2016	<b>F</b>	2017
<b>G</b>	2018	<b>H</b>	2019

**Note: Some practices on Vancouver Island may have continued to use the previous year code system i.e.: D = 1989, E = 1990 and so on. The letters D, I, O, Q and U have been purposely excluded from the above list.**

EXAMPLE:     **D 123 V**                     D for the facility (Island Veterinary Hospital, Nanaimo)  
  123 for the individual animal  
  V for the year (2008)

**RE 123 V**                     RE for the facility (Elk Lake Veterinary Clinic, Victoria)  
  123 for the individual animal  
  V for the year (2008)
