

BC Pet Registry Pilot Program

The British Columbia Society for the Prevention of Cruelty to Animals (BC SPCA) has been protecting animals for more than 120 years. Today, we continue our mission with life-saving programs such as the BC Pet Registry.

Since 2015, the BC Pet Registry's centralized permanent ID database has helped to increase permanent ID compliance, decrease length of stay in shelters, and reunite more lost pets with their families.

As the BC Pet Registry heads towards national expansion, we are looking for veterinary hospitals across Canada to help us get lost pets home faster than ever before. Join the BC Pet Registry Pilot Program and help us create more humane communities across the country!

Benefits

Receive discounts exclusive to BC Pet Registry Pilot Organisations.

Say good-bye to paperwork! Our online database is traceable by veterinarians and shelters worldwide.

Our database is available 24/7 to ensure no time is wasted in getting a pet back home.

Travel with confidence. All microchips registered are internationally traceable at petmicrochiplookup.org
